

## **Statement of Reasons**

### **The Borough Council Of Gateshead Highways Act 1980 – Section 90c (Glenridding Close, Gateshead) Proposed Construction Of Road Humps**

The road humps are proposed in association with a 20mph zone for this area. This being the case to enable the Council to implement a proposed 20mph speed limit zone in this area, the Council is required to introduce traffic calming features within the zone and the proposed road humps are part of these measures.
